# **EARLY CHILDHOOD EDUCATION & CARE**

## **Nurturing**

Are you caring, nurturing and have an interest in child development in the early years? Why not study Early Childhood!

## **Life changing influencer**

Young children are our future adults - your influence could be life changing!

## **Building relationships**

Developing partnerships with children, their families and the community allows educators to provide a learning environment where everyone feels a sense of belonging.

## **Life skills**

Studying Early Childhood helps prepare you to be a great educator by developing the fundamentals of early learning techniques in a safe environment. It also teaches you valuable life skills.
