ELECTROTECHNOLOGY

Career starting point

More than wiring houses, this is a starting point for Communications Technician, Linesmen, Engineer, Refrigeration or Air Conditioning.

Essential service

Not a building in this world is void of electricity and you have the power to connect it.

Electrotechnology is an essential service.

Problem solving

Ever wondered how lights come on with two switches? How electricity is made? Spark an interest here!

Safety

Gain an understanding of Electricity and it can help you with your car, a machine or a house. Learn what not to touch and save your life.
