MARINE STUDIES

Environmental Awareness

Environment and Water - two big things that will affect our future. You could start by knowing a bit more about it.

What lies beneath

Knowing what lies beneath - There is a whole other world below sea level - come and see!

Natures playground

Oceans and lakes are like huge playgrounds that only a small percentage of the world's population access for a living. Could you be a part of it?

Water, water everywhere

Like getting wet? Like being in the water? - It's hard to avoid this in Marine Studies.
